**Gaetano D'Avino** received his degree cum laude in Chemical Engineering from University of Naples Federico II on March 2004. In December 2007, he got his PhD at the Department of Chemical Engineering of University of Naples Federico II defended the thesis: "Computational Rheology of Solid Suspensions" under the supervision of Prof. Pier Luca Maffettone. During the PhD, he spent 9 months at the Department of Mechanical Engineering of the Technische Universiteit of Eindhoven TU/e (The Netherlands) in the group of Prof. Martien Hulsen. Later, he got a research contract from the University of Naples Federico II. In 2010, Gaetano spent one year as PostDoc at the Department of Chemical Engineering of the Katholieke Universiteit of Leuven (Belgium) in the group of Prof. Jan Vermant, followed by a research contract at the Department of Chemical Engineering of University of Naples Federico II. In February 2011, he joined the Center for Advanced Biomaterials for Health Care of the Istituto Italiano di Tecnologia (IIT) as Senior PostDoc. Since December 2012, he is assistant professor at the Dipartimento di Ingegneria Chimica, dei Materiali e della Produzione Industriale of University of Naples Federico II.

His research activity is mainly focused on the computational rheology with specific interest in: i) simulations of particle dynamics in complex fluids with applications in microfluidics, ii) prediction of rheological properties of viscoelastic suspensions, iii) development of efficient numerical methods for simulating the fluid dynamics of systems governed by non-Newtonian constitutive equations.

He is author of 57 scientific publications in international "peer review" journals and speaker in numerous international conferences.
