

PERSONAL INFORMATION**Mohammed Matallah**

Cité Ittifak, Remchi-Tlemcen Algeria

+213(0) 556640688

mohammed.matallah@gmail.com ; matallah@mail.univ-tlemcen.dz

State personal website(s) https://www.researchgate.net/profile/M_Matallah

Sex Male | 09/01/1979 | Nationality Algerian

WORK EXPERIENCE

July 2017 - Present

Professor (Full)

University of Tlemcen, BP 230, Tlemcen Algeria

Civil Engineering Department.

January 2015- Present

Laboratory Head (RISAM Research Laboratory-Tlemcen-Algeria)

January 2010 - July 2017

Associate Professor

University of Tlemcen, BP 230, Tlemcen Algeria

Associate Professor : Civil Engineering Department.

January 2009 - December 2009

Post-Doctoral Position

University of Pau et des pays de l'Adour , SIAME Research Laboratory , France

MEFISTO French National project “ Numerical Modelling of Concrete Cracking in reinforced Concrete Structures”

Aiming to develop new method for the evaluation of cracks openings in concrete structures.

June 2007 - December 2008

Post-Doctoral Position

University of Pau et des pays de l'Adour , SIAME Research Laboratory , France

Tight Gas Reservoirs Project (TGR) Research project- TOTAL

Electro-Hydraulic Fracturing of Rocks, application to Tight Gaz Reservoirs : Experimental, modelling

EDUCATION AND TRAINING

June 2011

Habilitation (The highest academic qualification in Algeria)

Habilitation permitting to supervise Phd Thesis and research

October 2002 – October 2006

PhD – Thesis “ Numerical Modelling of anisotropic damage and unilateral effects in concrete structures

University of Pau, France

October 2001 – June 2002

Diplome d'Etudes Approfondies (A master of advanced studies)

Ecole centrale of Nantes, France

1996- 2001

Civil Engineer Degree

University Of Tlemcen, Algeria

PERSONAL SKILLS

Mother tongue(s)	Arabic				
Other language(s)					
	UNDERSTANDING	SPEAKING		WRITING	
	Listening	Reading	Spoken interaction	Spoken production	
French	C2	C2	C2	C2	C2
English	C1	C1	B2	B2	C1
	Wall street Institut Certificat : Milstone Level				

TEACHING EXPERIENCE

Course Taught/Developed	Numerical methods : Finite element method, Finite Difference Method Plastic limit analysis : Application of the limit analysis theory to the analysis of the structural collapse Non linear analysis : Plasticity, Damage, Fracture Soil Dynamics : Site effect, soil response under seismic loading Structural Dynamics : Dynamic analysis, earthquake engineering Structural analysis , Rational Mechanics
Skill Developed	Depth knowledge of the taught courses : communication abilities, patience and responsibility Responsible for planning of teaching of undergraduate and postgraduate students

RESEARCH EXPERIENCE

Research Interest	Computational modelling of fracture in quasi-brittle materials, Coupled problems (Transfer, Creep, Damage,...), Reinforced concrete structures, concrete fracture modelling, seismic risk and earthquake engineering.
PhD Thesis Supervised	* A. Nouali " Numerical modelling of seismic response of concrete structures : influence of the Size effect" December 2017 . * A. Belbachir " Experimental and numerical investigation of the size effect of concrete structures under shear loadings" Thesis co-supervised by Pr A. Loukil EC Nantes France. September 2018 . * N. Aissaoui "Mesoscopic Modelling of concrete fracture: Energetic aspects and size effect" May 2018 *A. Bessaïd " Computational modelling of the gravity-dams response under seismic loading. Expected 2019

PhD Committee Member

- 2012 J. Saliba " Contribution of acoustic emission to the comprehension and on modeling of coupled creep - damage in concrete" Ecole Centrale of Nantes , France (<https://tel.archives-ouvertes.fr/tel-00779962/document>)
- 2015 A. Ras " Study of the behaviour of steel structures with viscous-fluids dampers under seismic loading" University of Tlemcen, Algeria
- 2018 S. Boudghene. " Study of the behaviour of steel structures with viscous-fluids dampers under seismic loading" University of Tlemcen, Algeria
- 2018 M. EL-HOUCINE. Controlled Collapse of a Massive Structure Partially Damaged by an Earthquake in an Urban Area: Theoretical Formulations and Numerical Models

Research Project

- 2007-2009 (Post-Doc position) Tight Gas Reservoirs: Electro-Hydraulic Fracturing of Rocks ; TOTAL-CNRS France, University of Pau
* Electro-hydraulic Shock Wave Generation As A Means To Increase Intrinsic Permeability Of Mortar, O. Maurel, T. Rees, M. Matallah, A. De Ferron, W. Chen, C. Laborderie, G. Pijaudier-Cabot, A. Jacques, F. Rey-Bethbeder, Cement And Concrete Research, 40,1631-1638, 2010.
*Modelling anisotropic damage and permeability of mortar under dynamic loads , W. CHEN, O. MAUREL, T . REESS, M. MATALLAH, A. de FERRON, C. LABORDERIE, G. PIJAUDIER-CABOT, Eur. J. Env. Civil Engrg . Vol. 15, 727-742, 2011
*Experimental And Numerical Study Of Shock Wave Propagation In Water Generated By Pulsed Arc Electrohydraulic Discharges , W. Chen, O. Maurel, C. La Borderie, T . Reess, A. De Ferron, M. Matallah, G. Pijaudier-Cabot, A. Jacques, F. Rey-Bethbeder, Heat And Mass Transfer, 50 (5), 673-684, 2014.
- 2009-2010 (Post-doc Position) Numerical Modelling of Concrete Fracture in Concrete Structures (MEFISTO) French National Project (University of Pau)
* A practical method to estimate crack openings in concrete structures Mohammed Matallah, C La Borderie, O Maurel International Journal for Numerical and Analytical Methods in Geomechanics 43(15),1615-1633 2010.
- 2011-2014 (Project Manager) Computational Modelling of Concrete Fracture in Concrete structures under seismic loading (PNR National Project)
- 2015-2016 (Task Manager) SEAL - SEismic structure of northern ALgeria from the surface to the upper mantle – an integrated framework for a better risk assessment (Portugal-Algeria Research Project)
- 2016-2019 (Member) COPE : Coping with Earthquakes Strengthening resilience of local Communities by sharing knowledge and Procedures: Earthquakes as a benchmark Horizon 2020- Work Programme (European Commission)

Invited Researcher

December 2010	Invited Professor : University of Pau France
June 2012- June 2013	Junior Research Chair Ecole Centrale de Nantes France
July 2014	Invited Professor Ecole Centrale fo Nantes France
July-September 2015	Invited Professor : University of Pau France

Journal Reviewer

Engineering Structures
Comptes Rendus Mecanique
Advances in Concrete Construction, *An International Journal*
Structural Engineering and Mechanics, *An International Journal*
International Journal for Numerical Methods in Engineering
International Journal of Geomate

Conference Committee Member

AUGC 2011 : Scientific Committee Member, Organizing Committee Member -Algeria
COINVEDI 2012 : Scientific Committee Member, Spain
AUGC2015 Scientific Committee Member Bayonne - France
CICCOM 2015 Scientific Committee Member Tlemcen –Algeria
AUGC2016 Scientific Committee Member Liège- Belgium
INVACO2016: Scientific Committee Member – Tunisia
CICCOM 2018 Scientific Committee Member Tlemcen –Algeria
