Centrale Nantes hosting the Syntec Numérique Tour

Following on from the Round Table on Connected Objects, Centrale Nantes is hosting the Syntec Numérique Tour (*trade union of digital services companies, software companies and technology consulting firms*) today from 6 to 9 pm, with the aim of introducing regional firms to the key issues and latest developments in digital technology.

This second edition will be marked by the signing of a partnership agreement between Syntec Numérique and ADN Ouest (association for the development of digital technology in the Pays de la Loire and Brittany).

This conference will focus on 4 major issues:

- digital transformation
- the digital revolution
- cyber-security
- digital tools: a blessing or a curse for company managers?

The participants include: **Godefroy de Bentzmann**, President of Syntec Numérique, **Jean-Pierre Moreau**, President ADN Ouest and **Jean-Sylvain CHAVANNE** of ANSSI (the French national authority in cyber-defence and network and information security), who attended the round table on connected objects at Centrale Nantes earlier this month.

About Centrale Nantes

Founded in 1919, Centrale Nantes is a French engineering school and member of the Ecoles Centrale Group. Its undergraduate, Master and PhD programmes are based on the latest scientific and technological developments and the best management practices. At Centrale Nantes, research and training are organised into three key areas for growth and innovation: manufacturing, energy transition and healthcare. With research platforms ranging from digital simulation to prototyping using full scale models and an incubator with 20 years of experience in supporting start-up projects, the school has two major tools for innovation and creation, working hand in hand with industry. Centrale Nantes promotes its teaching and research capabilities at international level through around 100 partnerships with prestigious universities and schools worldwide.

Centrale Nantes welcomes 2,410 students, including 1,440 undergraduate students, 170 Executive Education and ITII degree apprenticeship students, 270 PhD students, 430 Masters students, and 100 Bachelor/Foundation Master students on its 40-acre campus.
