PRESS RELEASE

Centrale Nantes and Pôle Emploi (Employment Centre) launch a 'Digital Opportunities' training programme

Pôle Emploi and Centrale Nantes are opening this new programme in 'Digital Opportunities' for 20 jobseekers from 10 January 2017 in Nantes.

Background

Pôle Emploi and Centrale Nantes decided to set up a training programme for job seekers to give them the skills and knowledge necessary to enter into a training-for-employment contract in the digital sector. This action, funded by Pôle Emploi, is aimed at young people between the ages of 18 and 30, with a high school diploma in science, and a strong interest in the digital sector. The 200-hour programme includes courses in French, English, computer languages and algorithms, and takes the form of classes and group work as well as career development support.

How to apply?

The training programme will run from 10 January to 31 March 2017 at Centrale Nantes. 20 places available. Applicants should send their application (CV + cover letter) directly to: formation-continue@ec-nantes.fr.

Opportunities

Pôle emploi approached Centrale Nantes with the suggestion of working together on this training programme to meet the needs of companies. The growing digital sector is recruiting, and this programme represents a real opportunity to access the labour market.
